

CELL ANALOGIES:

Directions: Relate the function of the following organelles to something you are familiar with in the every day world. Make sure you state why you made the relationship.

Example:

A cell wall is like bricks around a building because the cell wall supports and gives structure to a plant cell like the bricks give support and structure to a building.

Cell membrane

Cytoplasm

Nucleus

Ribosome

Rough ER

Smooth ER

Golgi Apparatus

Mitochondria

Lysosome

Vacuole

Chloroplast
