
Speech Assignment

Due Monday, January 14, 2008

1. Print out the syllabus

2. As per the syllabus:

Come to class on January 14 with a prepared 2-minute speech about your favorite movie. Consider when the movie was made, who stars in it, what its major message is, what kind of manipulation the producer/director might have been doing to your mind, what music or special effects make the movie a personal favorite, your first impressions when you first viewed the movie, if you've watched it more than once, etc.

This exercise will not be graded; it will help me know something about you, watch for some strengths you already possess and make comments about areas to work on for your first graded speech, the autobiography.
